

Climber series 9.

Technical specifications	9.16	9.21	9.21MP magnum
ENGINE	Briggs & Stratton Vanguard OHV 16 hp (13 kW) twin cylinder		Briggs & Stratton Vanguard 21 hp (15.5 kW) OHV twin cylinder
FUEL CONSUMPTION	3.5 lt/h		4 lt/h
STARTING SYSTEM	electric - 12V battery		
GEARBOX	hydrostatic transmission		
DIFFERENTIAL	with lock		
CLUTCH	electromagnetic for PTO		
SPEED	0-9 km/h variable and 0-4 km/h in reverse		
TYRES	tractor: front 13x5.00-6 / rear 17x8.00-8		garden: front 13x5.00-6 / rear 18x8.50-8
BRAKES	hydraulic service brakes integrated in transmission system mechanical front emergency brakes and rear parking brakes		
SEAT	sprung seat - adjustable		
CUTTING DECK	side/rear discharge	rear discharge and mulching	
CUTTING ASSEMBLY	rotary, with 1 blade	rotary, with 3 blades	
CUTTING WIDTH	91 cm	130 cm	
CUTTING HEIGHT	3-9 cm - 4 cutting positions and 1 travel position		
HOURLY CUTTING CAPACITY	7000 m ² /h *	8500 m ² /h *	
FUEL TANK	13 lt + 3 lt emergency supply		
ACCESSORIES	tow hook, garden wheels set, 130 cm MP deck, mulch kit	180 cm	tow hook, tractor wheels set, 91 cm deck
LENGTH	99 cm		132 cm
WIDTH	99 cm		132 cm
HEIGHT	107 cm		
WEIGHT	293 kg	305 kg	325 kg

* Indicative hourly cutting capacity based on Grillo standards (level lawn with no obstacles, grass of average height and consistency).

Features and technical data are not binding and may change without further notice.

CLIMBER serie 9

Grillo®

SPECIAL

Climber series 9.

The Mower That Just Wont Stop!

The Climber 9. Series is the ultimate result in the evolution of an innovative project: a hydrostatic-transmission mower with performance vastly superior to normal market standards. Its uniquely designed, robust structure encompasses advanced technology and high-quality components.

Operating comfort, compact size, a low centre of gravity and ergonomic controls provide all that is needed to work in any conditions, getting the best results even in the toughest professional applications.

The Climber 9. Series can go where other machines are inadequate and hazardous to use. Climber 9. mowers are specifically designed to negotiate steep gradients.

The Climber 9. Series is a highly professional mower developed and built for extended, heavy-duty mowing and cutting. All machine parts are of the highest quality and oversized to perform with the greatest of reliability in the most demanding situations.

The Climber 9. Series is the ideal machine for mowing and cutting all types of grass, brush or undergrowth even on difficult, sloping or uneven terrain.

- A** High-performance professional engines.
- B** Pedal-controlled front safety brakes, protected against infiltration and loss of efficiency.
- C** Balanced cutting-height adjustment lever with travel position that automatically disconnects and reconnects the PTO.
- E** Ball-head tow hook for hitching and carrying loads (max 150 kg).

Climber series 9.

■ Maximum safety

- Extremely low centre of gravity
- Balanced weight distribution
- High wheel grip
- "Push-Down" Pedal-operated differential lock
- Easy dismounting from either side
- Fitted with roll-bar

■ High efficiency

- Sturdy cutting assembly specifically designed for high-speed, efficient operation
- Electromagnetic PTO and controls in ergonomic position
- Highly manoeuvrable thanks to the rack and pinion steering system that makes it easy to keep the mower under complete control on any terrain

■ Excellent comfort

- Driver's seat easy to access from both sides
- Large foot-rest with control pedals, able to accommodate drivers of most heights
- Grip bars on both sides of the seat to ensure operator stability when working on slopes
- Improved noise level thanks to **GRILLO** engines and the new Grillo Super Silent silencers that further reduce noise levels

■ Complete reliability

- Independent hydrostatic transmission with oil cooling system
- Monobloc chassis made of high-strength steel capable of withstanding strain and stress
- Extra-thick metal plates treated by cathoporesis for maximum durability
- Safety systems protecting all vulnerable components

9.21 MP magnum

With 130 cm MP deck - rear discharge and mulching - and garden tubelife

New EO cm MP deck - rear discharge and mulching - interchangeable with standard 98 cm deck.

New

Match kit for 98 cm deck

In agriculture fast and powerful

In residential areas accurate and effective

On slopes and hilly terrain: maximum safety
